

Using Find & Grep Commands

Using find command

We can use find command to do just this for us

```
Dvs:~ dvs$ Find divyesh.txt  
  
divyesh.txt
```

if we need to search for every file that has an extension such as ".txt". Find let's us do that too!

```
dvs:~$ find -name *.txt  
  
./folder1/passwords.txt
```

Using Grep

- wc is stand for word count.

```
Dvs:~ dvs$ wc Downloads/linux/Test.php  
  
0      0      0 Downloads/linux/Test.php
```

- grep

```
bash
```
